PRESS RELEASE

For immediate distribution

Wednesday 9th August 2017 - 1700

WE'RE BACK AT HOME!

Following recent discussions with the London Borough of Hillingdon, the EvoStik League Southern and the Football Association, the club are delighted to announce that a Safety Certificate has been granted for the SkyEx Community Stadium, as well as agreement of a Ground Grading for the ground by the Football Associations and the Evostik League Southern.

The club would like to put on record the assistance and support of the London Borough of Hillingdon throughout this process, and the patience of the league, the Football Association and most of all the supporters during this drawn-out process.

Therefore, this Saturday's home game against Aylesbury will take place at the SkyEx Community Stadium, with a 3pm kick-off. There will be a full catering service available at the game – details of alcohol arrangements will be notified shortly, but at this late stage it is very unlikely that there will be any alcohol sales at the ground.

Further works will continue to improve facilities week on week, but these will be subject to further certification from the local council to ensure that the relevant certification of the additional areas is maintained throughout this time.

We hope to see as many supporters come down to the SkyEx to cheer on Paul Hughes' team as we seek to build on the excellent facilities that are now finally in regular use.

Tony O'Driscoll

Chairman
