## PRESS RELEASE

For immediate distribution

Tuesday 6<sup>th</sup> September - 1730

Following recent discussions with the London Borough of Hillingdon, the EvoStik League Southern and the Football Association, the club have to advise that their next round of home league and cup games will have to be played at alternative local stadiums.

Critical works on the new stadium, including various electrical items and other necessary amenities, need to be completed before the relevant authorities will be in a position to grant the relevant Safety Certificates. As a result, the club is left with no alternative but to come to agreements with other suitable clubs to host our games for the time being.

Therefore, this Saturday's game (10<sup>th</sup> September) between Hayes & Yeading United and Merthyr Town has been rearranged to take place at Silver Jubilee Park, the home of Hendon FC. The match will continue to have a 3pm kick-off.

Further arrangements are being made on a game by game basis, and these details will be released in due course in liaison with the EvoStik League Southern and the Football Association.

Obviously, the club is fully aware of the disruption that this will cause to supporters, both home and away, during this period. Hayes & Yeading United would like to apologise for these disruptions, and will work tirelessly to make sure that the time spent away from our new home is both short and productive.

The club would also like to thank Hendon FC for agreeing to take on this game at short notice, as well as both the EvoStik League Southern and the Football Association for their understanding during this disruption.

**Tony O'Driscoll**  
Chairman
